“Emotional intelligence isn’t a luxury you can dispense with in tough times. It’s a basic tool that, deployed with finesse, **is key to professional success.**”

– Harvard Business Review

Emotional intelligence (“EQ”) is the ability to use emotions effectively, and it’s the foundation of high-performing relationships. This course builds your capacity to develop this core capacity.

“This program enables me to apply the tools and learning with immediate effect. The learnings can be applied to self, at work and to my social network circle at large.”

- Callister Koh, Chief Human Capital Officer, Tecom Investments

Model

The Six Seconds Model of EQ-in-Action begins with three important pursuits: to become more aware (noticing what you do), more intentional (doing what you mean), and more purposeful (doing it for a reason).

There are many EQ training programs but Six Seconds and its phenomenal trainers are the real thing. You will be personally and professionally transformed.

Kathleen Ruby, PhD., Dir Wellness and Leadership Development
WSU College of Veterinary Medicine

This model is both simple and substantive. It’s easy to learn, practical, and action-oriented providing a process framework for putting the science of emotional intelligence into practice.

The course follows this model, however, the focus is on development so those who use other models (e.g., BarOn, Mayer-Salovey, Goleman) are able to apply Six Seconds’ methodology irrespective of theoretical model.

The Six Seconds EQ Model

- **Know Yourself:** Clearly understanding what you feel and do. Emotions are data, and these competencies allow you to accurately collect that information.
- **Choose Yourself:** Doing what you mean to do. Instead of reacting “on autopilot,” these competencies allow you to proactively respond.
- **Give Yourself:** Doing it for a reason. These competencies help you put your vision and mission into action so you lead on purpose and with full integrity.

Within these three “pursuits” are eight specific, measurable, learnable competencies that drive performance at work, at home, at school, and in life.

The seminar follows Six Seconds' Know Yourself, Choose Yourself, Give Yourself model for learning to develop and apply emotional intelligence. Participants experience an EQ learning environment and a range of effective tools and processes that strengthen emotional intelligence.

“EQ is instrumental in any organizational development process, it provides insight into what drives performance. Through applying a set of tools, it became obvious to us that if the organizational EQ is properly attended to, we will be able to see more alignment between organizational and employees objectives, better endorsement of change, and an overall positive environment”
